NARRATIVE	
1	Licensing Program Analysts (LPAs) Angela Barutyan and Quoc Huynh conducted an unannounced
2	Case Management - Incident visit at 10:10AM. The purpose of this visit is to conduct an investigation
3	regarding a self-reported incident that occurred on 06/24/2026. LPAs met with Executive Director (ED)
4	Allison Marty and explained the reason for the visit.
5	
6	During today's visit, LPAs conducted a physical plant tour and a medication review.
7	
8	On 07/02/2026, the Department received an incident report stating that on 06/24/2026 around 10:00PM,
9	Resident #1 (R1) was administered an incorrect increased dosage of Buprenorphine. The error was
10	identified during the facility nurse's narcotic count when it was discovered that the resident had received
11	16 mg of Buprenorphine, which is beyond their prescribed regimen of 4 mg. Upon notification of the
12	error, R1 was immediately assessed by the two (2) nurses on duty and was alert and stable. ED Marty,
13	who was in the community, also responded to check on R1 and notified R1 of the error. ED also advised
14	R1 that their responsible party and primary care physician (PCP) would be contacted. Per PCP's
15	recommendation, paramedics evaluated the resident. R1 was awake, alert, verbally responsive,
16	ambulating independently, and no adverse effects noted. ED also observed R1 stable. Following the
17	paramedic's evaluation, R1 declined transport to the hospital. Frequent nursing assessments were
18	conducted throughout the night for R1. Staff were provided with med-pass retraining and ongoing
19	trainings.
20	
21	Based on the information obtained during today's visit, it is determined that no deficiency is warranted at
22	this time due to no immediate health and safety risk to R1 and the facility's proactive response to
23	rectifying the error. An additional report may follow if warranted. Exit interview conducted. A copy of the
24	report provided.

FACILITY EVALUATION REPORT California law requires a public report of each licensing visit/inspection. This report is a record for the facility and the licensing agency. This report is available for public review; therefore, care is taken not to disclose personal or confidential information. Inquiries concerning the location, maintenance, and contents of these reports may be directed to the Licensing Program Analyst or Regional Office whose address and telephone number are listed on the front of this form.

DEFICIENCIES A deficiency is an instance of noncompliance with licensing requirements, including applicable statutes, regulations, interim licensing standards, operating standards, and written directives. Applicants/ licensees must be notified in writing of all licensing deficiencies. Deficiencies are listed on the left side of this form, and the applicable licensing requirement upon which the deficiency is identified. There are two types of deficiencies:

- Type A deficiencies are violations of licensing requirements that, if not corrected, have a direct and immediate risk to the health, safety, or personal rights of persons in care.
- Type B deficiencies are violations of licensing requirements that, without correction, could become a risk to the health, safety, or personal rights of persons in care, a recordkeeping violation that could impact the care of said persons and/or protection of their resources, or a violation that could impact those services required to meet the needs of persons in care.

PLANS OF CORRECTION (POCs) The licensing agency is required to establish a reasonable length of time to correct a deficiency. In order to set the time, the licensing agency must take into consideration the seriousness of the violation, the number of persons in care involved, and the availability of equipment and personnel necessary to correct the violation. Applicants/licensees are requested to provide a specific plan for each violation on the right side of the form across from each deficiency. The more specific the plan, the less chance exists for any misunderstanding in setting time limits and reviewing corrections. The applicant/licensee who encounters problems beyond their control in completing the corrections within the specified time frame may request and may be granted an extension of the correction due date by the licensing agency.

CORRECTION NOTIFICATION The applicant/licensee is responsible for completing all corrections and promptly notifying the licensing agency of corrections. Applicants/licensees are advised to keep a dated copy of any correspondence sent to the licensing agency concerning corrections, or if corrections are telephoned to the licensing agency, the date, person contacted, and information given.

CIVIL PENALTIES The licensing agency is required by law to issue a Penalty Notice, when applicable, to all facilities holding a license issued by the licensing agency, or subject to licensure, except Certified Family Homes, Resource Families, and Foster Family Homes, or any governmental entity.

PENALTY NOTICE GIVEN The statement concerning civil penalties serves as a penalty notice on this Licensing Report and failure to correct cited licensing deficiencies will result in civil penalties. Applicants/ licensees are required to pay civil penalties when administrative appeals have been exhausted and in accordance with any payment arrangements made with the licensing agency.

APPEAL RIGHTS The applicant/licensee has a right without prejudice to discuss any disagreement in this report with the licensing agency concerning the proper application of licensing requirements. The applicant/ licensee may request a formal review by the licensing agency to amend or dismiss the notice of deficiency and/ or civil penalty. Requests for review shall be made in writing within 15 business days of receipt of a deficiency notification or civil penalty assessment. Licensing deficiencies may be appealed pursuant to the procedures in the LIC 9058 Applicant/Licensee Rights.

AGENCY REVIEW The licensing agency review of an appeal may be conducted based upon information provided in writing by the applicant/licensee. The applicant/licensee may request an office meeting to provide additional information. The applicant/licensee will be notified in writing of the results of the agency review within 60 business days of the date when all necessary information has been provided to the licensing agency.

EMAIL REQUIREMENT Adult Community Care Facilities, Residential Care Facilities for the Chronically Ill, and Residential Care Facilities for the Elderly are required to provide and maintain an active email address of record with the licensing agency.
