Item #	Rule (16.03.22)	Description
1	.310.01.c. Medication Distribution System.	The facility failed to ensure the medication refrigerator temperatures were within parameters. For example, between February and March 2021, the temperature log for the medication refrigerator, which contained residents' insulin, documented temperatures ranging from 32 to 37 degrees Fahrenheit on 20 occasions. The administrator stated she was unaware of the proper temperature range of 38 to 45 degrees.
