Item #	Rule (16.03.22)	Description
1	39-3309.01 NEGOTIATED SERVICE AGREEMENT	Residents' Negotiated Service Agreements (NSAs) did not clearly reflect the residents' needs, describe the services to be provided, and/or consistently follow the NSA. For example, Resident #4's NSA did not document they slept in their recliner and required assistance transferring into their recliner. Resident #4 stated they did not consistently receive their required assistance in a timely manner at bedtime when it was not the regular staff working their hall. Resident #6's NSA did not document they routinely ate meals in their room and required full assistance with eating. Resident #2's NSA documented staff were to encourage and make sure their walker was near them to use, however the resident was observed during the survey multiple times walking in the hallways and common areas without their walker. During these observations, staff did not encourage nor retrieve Resident #2's walker. The administrator stated Resident #4 and #6's NSA should have been updated. The facility nurse and administrator stated staff should have followed Resident #3's NSA. ***Previously cited on 9/05/23 under rule 320.08***

2	39-3321.2.d. Qualifications and Requirements of Administrator.	The facility did not develop interventions to prevent recurrences after residents' incidents. For example, Resident #1 experienced three falls on 3/24/26, 7/14/26, and 7/17/26 and interventions to prevent recurrences were not developed until 4/20/26 and 8/13/26, respectively. Resident #1 also fell on 9/15/26 and there were no interventions to prevent recurrences. Resident #3 experienced falls on 9/1/26 and 9/5/26 and there were no interventions to prevent recurrences. The facility nurse stated the facility had not implemented interventions to prevent recurrences. The administrator stated she thought interventions did not have to be developed until the incident investigations were completed.
3	.250.07. Heating, Ventilation, and Air-Conditioning (HVAC)	The facility did not maintain the Heating, Ventilation, and Air-Conditioning (HVAC) system to meet current local code when they failed to have the fuel fired heating system inspected and serviced annually. The facility administrator stated no annual inspection was completed on the fuel fired heating system.
