(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0842</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Safeguard resident-identifiable information and/or maintain medical records on each resident that are in accordance with accepted professional standards.</p> <p>Based on interview and record review, the facility failed to ensure resident records were complete and accurate for 3 of 3 residents reviewed for complete and accurate documentation. (Resident B, Resident C, Resident D)</p> <p>Findings include:</p> <p>1. The clinical record for Resident B was reviewed on 1/23/25 at 8:20 a.m. The diagnoses included, but were not limited to, osteomyelitis of vertebrae, peripheral vascular disease, neurogenic bladder, and diabetes.</p> <p>An Annual Minimum Data Set (MDS) assessment, dated 10/17/24, indicated Resident B was cognitively intact.</p> <p>The physician's order included, but were not limited to:</p> <ul style="list-style-type: none"> - Cleanse coccyx (tailbone) wound with wound cleanser, apply wound vac (wound dressing that uses suction to remove drainage and encourage new tissue growth) to coccyx at 125 mmHg (millimeters of Mercury) on day shift every Monday, Wednesday, and Friday. Initiated on 12/16/24 and discontinued on 1/8/25. - Cleanse coccyx wound with wound cleanser, apply calcium alginate, apply kerlex, cover with absorbent dressing on day shift. Initiated on 1/9/25 and discontinued on 1/15/25. - Cleanse left hip wound with wound cleanser, apply medical grade honey, cover with bordered gauze on day shift, every day. Initiated on 1/9/25 and discontinued on 1/15/25. - Cleanse right scapula/flank wound with wound cleanser, apply calcium alginate to wound bed, cover with absorbent dressing on day shift, very day. Initiated on 1/9/25 and discontinued on 1/15/25. <p>The December 2024 TAR (Treatment Administration Record) lacked documentation that the coccyx wound vac treatment was completed, on 12/18/24 and 12/27/24.</p> <p>The January 2025 TAR lacked documentation as follows:</p> <ul style="list-style-type: none"> - lacked documentation that the coccyx wound vac treatment was completed on 1/3/25, 1/6/25, and 1/8/25. <p>(continued on next page)</p>

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
