## **II. Purpose of Addendum**

The facility proposes adding 17 beds to their Home for the Aged license. The additional 17 beds will be designated for residents who require additional services due to memory loss.

## **III. Methodology**

An inspection of the addition was conducted on May 09, 2005.

An Occupancy Approval was received from the Department of Community Health, Bureau of Health Systems, Health Facilities Engineering Section, on May 31, 2005.

A full approval Fire Safety Report was received from the Department of Labor & Economic Growth, Bureau of Construction Codes and Fire Safety on June 20, 2005.

## **IV. Description of Findings and Conclusions**

The proposed 17 additional Home for the Aged beds are located on the second floor of an addition to the Cook Unit which currently contains the Home for the Aged memory care unit on the 2<sup>nd</sup> floor and licensed skilled nursing on the 3<sup>rd</sup> and 4<sup>th</sup> floor.

The addition contains an employee room and storage on 1<sup>st</sup> floor, proposed Home for the Aged beds on 2<sup>nd</sup> floor, and skilled nursing on the 3<sup>rd</sup> and 4<sup>th</sup> floors.

A set of double doors leads from the existing 2<sup>nd</sup> floor Cook Unit into the addition. These double doors will be kept open when the addition is approved for occupancy.

The additional 17 rooms will be a part of a secure unit, which requires knowledge of a numerical code in order to open the exit doors.

The addition is handicapper accessible.

One resident room has a complete bathroom, with a handicapper accessible shower. Sixteen resident rooms have restrooms with a toilet and sink.

The resident rooms are completely furnished; however, residents may use their own furniture.

The addition also contains a bathing room, dining room, lounge, therapy room, kitchenette, linen storage room, soiled linen room, examination room, nurse manager's office, nurses' station, and medication room.

The facility is in compliance with all applicable rules and statutes.

**Recommendation**

I recommended increasing this Home for the Aged license from 248 beds to 265.
