

STATEMENT OF DEFICIENCIES AND PLAN OF CORRECTION	(X1) PROVIDER/SUPPLIER/CLIA IDENTIFICATION NUMBER:  265590	(X2) MULTIPLE CONSTRUCTION A. Building B. Wing	(X3) DATE SURVEY COMPLETED  01/14/2025
NAME OF PROVIDER OR SUPPLIER  Monroe Manor		STREET ADDRESS, CITY, STATE, ZIP CODE  200 South St Paris, MO 65275	

For information on the nursing home's plan to correct this deficiency, please contact the nursing home or the state survey agency.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0880</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Provide and implement an infection prevention and control program.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> Based on observation, interview, and record review, the facility failed to ensure staff monitored and provided hand hygiene for one resident (Resident #6), in a review of ten sampled residents. Resident #6 had diagnosis of dementia and was incontinent of bowel and bladder. The resident wandered and continually placed his/her hands in his/her pants and fondled his/her genitalia. Resident #6 touched multiple items on the unit including a resident's meal tray, food items, drinking glasses, and a water pitcher on a medication cart without appropriate hand hygiene. The facility census was 80.</p> <p>Review of the undated facility policy, Hand Hygiene, showed the following:</p> <ul style="list-style-type: none"> <li>-When to use soap and water:</li> <li>-When hands are visibly dirty or visibly soiled with blood or other body fluids;</li> <li>-Before eating and after using the restroom;</li> <li>-After approximately 10 uses of Alcohol-based hand gel or hands feel tacky from use hand gel;</li> <li>-When to use alcohol-based hand gel:</li> <li>-Before and after resident contact;</li> <li>-After body fluid exposure or contact with other inanimate objects.</li> </ul> <p>1. Review of Resident #6's undated face sheet showed the following:</p> <ul style="list-style-type: none"> <li>-He/She admitted to the facility on [DATE];</li> <li>-He/She had diagnoses of Alzheimer's disease, unspecified, (progressive and debilitating disease that caused severe cognitive decline and affected ability to function in daily life) and Alzheimer's disease with early onset (diagnosed before the age of 65).</li> </ul> <p>Review of the resident's progress notes showed staff documented the following:</p> <ul style="list-style-type: none"> <li>-12/06/24 at 12:30 P.M., the resident was up ambulating in the unit, was incontinent of bowel and bladder, wandered in and out of other resident's rooms and grabbed other resident's belongings and carried them around;</li> </ul> <p>(continued on next page)</p>

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0880</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Review of the resident's progress notes showed staff documented the following:</p> <p>-On 12/23/24 at 6:11 P.M., the resident wandering into other residents' rooms and around noon, wandered into a resident's room and sat down and began eating that resident's lunch. Apron, belt, and jeans have not been successful in keeping the resident's hand out of his/her pants and fondling genitals;</p> <p>-On 12/24/20 at 5:46 P.M., the resident continued to wander into other residents' rooms (opened and closed doors), picking up items that do not belong to him/her; wearing the jeans, belt, and apron do not prevent the resident from keeping the resident's hand out of his/her pants and fondling genitals; incontinent of bowel and bladder; difficult to toilet;</p> <p>-On 12/30/24 at 2:55 P.M., he resident continued to wander into other residents' rooms; continues to have his/her hand down his/her pants fondling genitals; took food from other resident's trays at mealtime and staff must observe closely;</p> <p>-On 12/31/24 at 6:49 P.M., the resident continued to wander, go into other residents' rooms and take items, continues to have his/her hands in his/her pants fondling genitals;</p> <p>-On 01/06/25 at 6:39 P.M., the resident continued to wander into other residents' rooms and pick up items; continues to put hands in pants and fondles genitals despite any attempts to prevent;</p> <p>-On 01/07/25 at 6:50 P.M., the resident wandered with feces on his/her hand, the resident threw feces across the floor. Continued to wander with hand down his/her pants fondling genitals and into other residents' rooms picking up random objects.</p> <p>Observation of the resident on 01/13/25 showed the following:</p> <p>-At 2:30 P.M., the resident wandered around the unit, wearing jeans and a carpenter belt with his/her hand down his/her pants fondling his/her genitals. No staff redirected the resident or intervened to provide hand hygiene;</p> <p>-At 2:39 P.M., the resident grabbed Resident #4's stuffed animal and put it in his/her mouth;</p> <p>-At 2:40 P.M., staff handed Resident #4 his/her stuffed animal back without cleaning it first and did not assist Resident #6 with hand hygiene;</p> <p>-At 3:00 P.M., the resident walked on the unit with his/her hands in his/her pants, walking up behind Resident #10 and touched Resident #10's shoulders. Housekeeper C observed this and consoled Resident #10 as he/she appeared afraid, but did not wash Resident #6's hands or alert care staff that Resident #6's hands needed to be washed. Resident #6 continued to walk with his/her hands in his/her pants, removed his hand, touched bread in a sack on a dining room table and then touched a bag of bread near the coffee pot. No staff redirected the resident or intervened to provide hand hygiene.</p> <p>Observation of the resident on 01/14/25 at 10:20 A.M., showed he/she wandered up and down the hall with his/her hand down his/her pants. He/She walked up to the medication cart near the nurse's station, and picked up a pitcher of water. Certified Medication Technician (CMT) E removed the pitcher from the resident's hand and placed it back on the medication cart without cleaning or replacing the water pitcher. CMT E did not assist the resident to provide hand hygiene and CMT E did not perform</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0880</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>hand hygiene after touching the same water pitcher.</p> <p>2. During an interview on 01/13/2025 at 4:10 P.M., Resident #1 said the following:</p> <ul style="list-style-type: none"> <li>-Due to Resident #6's behaviors, including having his/her hands in his/her pants and then putting his/her hands all over the glasses and silverware on the tables at meal times, he just tried to stay in his/her room and has meals delivered to his/her room;</li> <li>-Resident #6 came into his/her room, sat down in his/her chair and stuck his/her fingers into his/her food while he/she was eating; he/she did not like that because he/she knew where Resident #6's hands had been;</li> <li>-Resident #6 always has his/her hands down the front of his/her pants.</li> </ul> <p>3. During an interview on 01/13/2025 at 6:15 P.M., CMT D said it was very difficult keeping things sanitized after Resident #6 had his/her hands down his/her pants and then touched things.</p> <p>During an interview on 01/14/2025 at 10:05 A.M., CMT E said the following:</p> <ul style="list-style-type: none"> <li>-He/She could not always watch Resident #6;</li> <li>-Resident #6 touched himself/herself inappropriately;</li> <li>-If he/she was not constantly watching Resident #6, he/she went into other resident's rooms, picked things up and carried them away.</li> </ul> <p>During an interview on 01/14/2025 at 10:20 A.M., CMT F said Resident #6 kept his/her hands down his/her pants and constantly touched things. It was hard to keep things sanitized.</p> <p>During an interview on 1/13/2025 at 2:15 P.M. and 6:15 P.M., Licensed Practical Nurse (LPN) B said he/she had difficulty with meal prep and service due to Resident #6 picking up drinks (glasses for all of the residents), from the tables or going in other resident rooms and eating their food. Resident #6's hands may be dirty from having his/her hands in his/her pants and staff do not always catch what he/she has touched. Other residents see it and this upsets them.</p> <p>During an interview on 01/13/25 at 5:55 P.M., 01/13/25 at 6:30 P.M. and 01/14/25 at 7:00 P.M., the Director of Nurse (DON) said they tried to educate staff about hand sanitizing and keeping the resident's hands clean after having touched his/her genitals.</p> <p>During an email communication on 01/30/2025 at 5:21 P.M., the DON said the following:</p> <ul style="list-style-type: none"> <li>-Staff should be cleaning up the area and the resident after the resident urinates or defecates;</li> <li>-Staff should be sanitizing high touch areas frequently throughout the day;</li> <li>-There should be no time when the resident urinates or defecates that the staff are not immediately taking him/her to the bathroom to clean him/her up and wash his/her hands.</li> </ul> <p>MO246694</p>
