NAME OF PROVIDER OR SUPPLIER  Accura Healthcare of Tekamah		STREET ADDRESS, CITY, STATE, ZIP CODE  823 M Street Tekamah, NE 68061	

For information on the nursing home's plan to correct this deficiency, please contact the nursing home or the state survey agency.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0656</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Develop and implement a complete care plan that meets all the resident's needs, with timetables and actions that can be measured.</p> <p>Licensure reference number 175 NAC 12-006.09E(iii)</p> <p>Based on observation, record reviews and interviews, the facility failed to develop and implement a Comprehensive Care Plan (CCP, a written interdisciplinary comprehensive plan which detailed how to provide quality care for a resident) catheter for 1 (Resident 5) of 1 sampled resident. The facility census was 28.</p> <p>Findings are:</p> <p>Record review of Resident 5's admission record revealed admission was 8/27/24.</p> <p>Record review of Resident 5's diagnosis revealed Neuromuscular Dysfunction of Bladder, unspecified.</p> <p>Record review of Resident 5's Minimum Data Set (Minimum Data Set, a comprehensive assessment of each resident's functional capabilities) Section H, dated 9/3/24 revealed that Resident 5 did have a catheter.</p> <p>Record review of Physician's Orders for Resident 5 dated 08/27/2024 revealed:</p> <ul style="list-style-type: none"> <li>-Change dry dressing to Suprapubic Foley catheter insertion site daily and PRN.</li> <li>-Ensure catheter cares are completed during your shift.</li> <li>-Irrigate Suprapubic Catheter with 30ml of Normal Saline if clogged as needed.</li> </ul> <p>Record review of Physician's Orders for Resident 5 dated 09/01/2024 revealed:</p> <ul style="list-style-type: none"> <li>-Change Suprapubic Catheter - every month and PRN as needed based on clinical indications such as infection, obstruction, or when the closed system is compromised. Provide new drainage bag with new Foley catheter.</li> </ul> <p>Record review of Resident 5's Care Plan on 10/29/24 revealed that the Suprapubic catheter was not on the Care Plan.</p> <p>Interview with MDS coordinator on 10/30/24 at 9:28 AM revealed that the Resident 5's Suprapubic catheter should be on the care plan but wasn't.</p> <p>(continued on next page)</p>

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

<p>F 0880</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>some of the leg treatment frequently. RN said today resident is refusing to let the nurse do the soaking of the wound bed with Vashe for 15 minutes prior to treatment application or Triad paste to peri-wound of right 2nd toe and lower leg, and Resident 8's doctor is aware.</p> <p>Observation on 10/30/24 at 10:00 AM with RN for Resident 8 for wound care. RN donned (put on) gloves and cleansed the bedside table before placing supplies. RN doffed (removed) gloves and washed hands with soap and water for 12 seconds. RN donned (put on) a gown, mask, goggles and gloves. RN then removed the right 2nd toe dressing, doffed gloves, performed hand hygiene with hand sanitizer gel, then donned gloves. Resident refused to let the nurse do a Vashe or 1/2 Dakin's-soaked gauze x 15 minutes prior to treatment for leg or toe and refused triad paste. RN cleansed toe wound with hibiclens and normal saline to wound bed well to assist with removing biofilm and debris, rinsed with normal saline and dried. RN then cut a small piece of Aquacel AG dressing and applied to wound bed, covered with gauze, and secured with gauze tape. RN washed hands with soap and water for 9 seconds and donned gloves. RN removed the old dressing to right lower leg, doffed gloves, and performed hand hygiene with hand sanitizer gel, and donned gloves. RN cleansed the right leg wound and peri-wound with hibiclens in normal saline, wiped wound bed well with moistened gauze to assist with removing biofilm and debris, rinsed with normal saline and dried. RN performed hand hygiene, donned gloves, and applied Hydrofera Blue dressing to wound bed. RN covered with ABD pad and secured with gauze wrap and tape. RN dated the dressings. RN cleaned work area. RN removed gown, mask, goggles and gloves. RN then washed hands with soap and water for 9 seconds and took trash can liner out of room.</p> <p>Interview on 10/30/24 at 10:30 AM with RN confirmed that [gender] should have washed their hands at least 15-20 seconds.</p> <p>Interview on 10/30/24 at 11:20 AM with Director of Nursing (DON) confirmed that hand washing should be done for 20 seconds.</p> <p>Record review of Hand Hygiene Policy updated 2021 revealed:</p> <p>Policy: Hand hygiene - Staff involved in direct resident contact will perform proper hand hygiene procedures to prevent the spread of infection to other personnel, residents, and visitors.</p> <p>5. Hand hygiene technique when using soap and water:</p> <ol style="list-style-type: none"> <li>a. Wet hands with water. Avoid using hot water because repeated exposure to hot water may increase the risk of dermatitis.</li> <li>b. Apply enough soap to cover all hand surfaces.</li> <li>c. Rub hands together vigorously for at least 15 seconds, covering all surfaces of the hands and fingers.</li> <li>d. Rinse hands with water.</li> <li>e. Dry thoroughly with a single-use towel.</li> <li>f. Use towel to turn off the faucet.</li> </ol> <p>B.</p> <p>(continued on next page)</p>
