

STATEMENT OF DEFICIENCIES AND PLAN OF CORRECTION	(X1) PROVIDER/SUPPLIER/CLIA IDENTIFICATION NUMBER: 305085	(X2) MULTIPLE CONSTRUCTION A. Building B. Wing	(X3) DATE SURVEY COMPLETED 01/03/2025
NAME OF PROVIDER OR SUPPLIER Langdon Place of Keene		STREET ADDRESS, CITY, STATE, ZIP CODE 136 A Arch Street Keene, NH 03431	

For information on the nursing home's plan to correct this deficiency, please contact the nursing home or the state survey agency.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0880</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Provide and implement an infection prevention and control program.</p> <p>Based on observation, interview, and record review, it was determined that the facility failed to implement policies and procedures for Enhanced Barrier Precautions (EBP) for 1 of 2 residents reviewed for EBP in a final sample of 13 residents. (Resident identifier is #176.)</p> <p>Findings include:</p> <p>Observation on 1/2/25 at approximately 10:00 a.m. on the unit revealed an EBP sign and Personnel Protective Equipment (PPE) cart outside of Resident #176's room next to the entrance door.</p> <p>Review on 1/2/25 of Resident #176's active physician's order revealed an order for a Peripherally Inserted Central Catheter (PICC) line with a start date of 1/2/25.</p> <p>Observation on 1/3/25 at approximately 6:00 a.m. in Resident #176's room revealed that Staff A (Licensed Nursing Assistant (LNA)) was wearing a mask, gloves, and no gown while in Resident #176's room and assisting Resident #176 out of the bathroom. Observation also revealed that Staff A was taking off dirty linens and then putting on clean linens wearing the same mask, gloves, and no gown.</p> <p>Interview on 1/3/25 at approximately 6:05 a.m. with Staff A confirmed the above finding. Staff A stated that he/she assisted Resident #176 with toileting and changing Resident #176's linens.</p> <p>Interview on 1/3/25 at approximately 6:40 a.m. with Staff B (Infection Preventionist) confirmed that Resident #176 was on EBP for the PICC line (central line). Staff B stated that gown and gloves should be worn by staff when assisting a resident on EBP with toileting and changing linens.</p> <p>Review on 1/3/25 of the facility's policy titled, Enhanced Barrier Precautions, copyright year 2024, revealed .Initiation of Enhanced Barrier Precautions: .Wounds (e.g. chronic wounds such as pressure ulcers, diabetic foot ulcers, unhealed surgical wounds, and chronic venous stasis ulcers) and/or indwelling medical devices (e.g. central lines, urinary catheters, feeding tubes, tracheostomy/ventilator tubes, hemodialysis catheters, PICC lines, midline catheters) even if the resident is not known to be infected or colonized with a MDRO [Multidrug-Resistant Organisms] .Implementation of Enhanced Barrier Precautions: .PPE for enhanced barrier precautions is only necessary when performing high-contact care activities .High-contact resident care activities include: .e. changing linens f. changing briefs or assisting with toileting .References: Centers for Disease Control and Prevention [CDC]. Frequently Asked Questions (FAQs) about Enhanced Barrier Precautions in Nursing Homes .Centers for Disease Control and Prevention . Implementation of Personal Protective Equipment in Nursing Homes to Prevent Spread of Novel or Targeted Multidrug-Resistant Organisms .</p> <p>Review on 1/3/25 of the CDC's Implementation of Personal Protective Equipment Use in Nursing Homes</p> <p>(continued on next page)</p>

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0880</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>to Prevent Spread of Multidrug Resistant Organisms (MDRO's), updated July 2022 revealed: .Enhanced Barrier Precautions expand the use of PPE and refer to the use of gown and gloves during high-contact resident care activities that provide opportunities for transfer of MDRO's to staff hands and clothing. MDRO's may be indirectly transferred from resident-to-resident during these high-contact activities. Nursing home resident with wounds and indwelling medical devices are at especially high risk of both acquisition of and colonization with MDRO's. The use of gown and gloves for high-contact resident care activities is indicated, .Enhanced Barrier Precautions, Expand the use of PPE and refer to the use of gown and gloves during high-contact resident care activities that provide opportunities for transfer of MDROs to staff hands and clothing. MDROs may be indirectly transferred from resident-to-resident during these high-contact care activities. Nursing home residents with wounds and indwelling medical devices are at especially high risk of both acquisition of and colonization with MDROs. The use of gown and gloves for high-contact resident care activities is indicated, when Contact Precautions do not otherwise apply, for nursing home residents with wounds and/or indwelling medical devices regardless of MDRO colonization as well as for residents with MDRO infection or colonization Examples of high-contact resident care activities requiring gown and glove use for Enhanced Barrier Precautions include: .Device care or use: central line, urinary catheter, feeding tube, tracheostomy/ventilator .</p>
