Follow-Up Type: Not Required

## 82a - Poisonous Materials

## 1. Requirements

2600.

82.a. Poisonous materials shall be stored in their original, labeled containers.

## Description of Violation

*On 9/26/2023 at 10:38 AM, a 24 ounce clear spray bottle containing a blue liquid substance was observed in the 1st floor housekeeping closet. The bottle was identified as "multi surface 8/25" in marker. A manufacturer's label was not used.*

## Plan of Correction

Directed ( ) - 09/28/2023)

*The benefit of the regulation is to minimize the possibility that a resident or staff person will mistake a poisonous substance for a harmless substance. The issue was corrected at time of inspection. The spray bottle was immediately removed from the housekeeping closet and the proper Ecolab chemical label was applied accordingly by the Maintenance Director.*

*On 09.26.2023 The Maintenance Director and Housekeeping staff were provided education by ( ) Residence Director. A record of training is maintained in the associates training record. All new associates will be provided training by the Maintenance Director. A record of training is maintained on the individual's safety education record in the associate's file.*

*On 09.26.2023, the Residence Director, ( ), the Maintenance Director, ( ) and the Housekeeper, ( ) did complete an initial internal audit to ensure all cleaning supplies/chemicals have the proper labels and no further issues were noted. The Safety Inspection Checklist tool was used and remains on file in the Residence Directors office.*

*To prevent future occurrences the Maintenance Director will complete a monthly Safety Inspection for ongoing compliance and the document will be retained in the Residence Director's office.*

(Directed)

- All current staff will be provided training by the Maintenance Director by 10/6/2023. A record of training will be kept by the home.*
- To prevent future occurrences, beginning October 1, 2023, the Maintenance Director will complete a monthly Safety Inspection for ongoing compliance and the document will be retained in the Residence Director's office.*

Directed Completion Date: 10/06/2023

Implemented ( ) - 09/29/2023)

## 84 - Heat Sources

## 2. Requirements

2600.

84. Heat Sources - Heat sources, such as steam and hot heating pipes, water pipes, fixed space heaters, hot water heaters and radiators exceeding 120° F that are accessible to the resident must be equipped with protective guards or insulation to prevent the resident from coming in contact with the heat source.

## Description of Violation

*On 9/26/2023, a steam table was observed in the Secured Dementia Care Unit's kitchen. There were no protective guards in place to prevent residents from coming in contact with the steam table.*

## 84 - Heat Sources (continued)

**Plan of Correction**

Accept ( [REDACTED] - 09/28/2023)

Although no residents are currently residing in the home the regulation is in place to minimize the risk that residents will suffer burns by coming into contact with exposed heat sources. The steam table was removed at time of inspection from Reflections SDCU and is currently in storage. To prevent further occurrence the contractor will install a half wall and door to prevent access to the steam table heat source. The steam table will remain in storage until the work is completed within the next thirty days. The Residence Director will ensure the work is completed. The staff will be trained and the area will be monitored by all staff to be sure it remains locked, preventing resident access and supporting safe practices.

Licensee's Proposed Overall Completion Date: 10/25/2023

Implemented ( [REDACTED] 09/29/2023)

## 103f - Refrigerator/Freezer Temps

**3. Requirements**

2600.

103.f. Food requiring refrigeration shall be stored at or below 40°F. Frozen food shall be kept at or below 0°F. Thermometers are required in refrigerators and freezers.

**Description of Violation**

On 9/26/2023 at 10:05 AM, the temperature in the cinema's refrigerator was 44 degrees Fahrenheit, and at 10:21 AM it was 48 degrees Fahrenheit.

**Plan of Correction**

Accept ( [REDACTED] - 09/28/2023)

The controlled temperature ensures that foods are stored at safe temperatures. On 09.26.2023 [REDACTED], Maintenance Director was provided and educated by [REDACTED] Residence Director, with a copy of the regulatory requirement. A record of the training is maintained in the associate training file. A temperature log sheet was developed on 09.26.2023 by Residence Director, [REDACTED]. The start date of the temperature log sheet was 09.26.2033 by Maintenance Director, [REDACTED]. On 09.27.2023 the Maintenance Director did place a new thermometer in the theater refrigerator and has monitored temperatures and completed logs (see attached). The Maintenance Director will continue to monitor and record the temperature logs daily for ongoing compliance.

Licensee's Proposed Overall Completion Date: 09/28/2023

Implemented ( [REDACTED] - 09/29/2023)
