The pureed rice had chunks of rice grains in it and was not fully pureed. The DM said [NAME] A had prepared the pureed food items for the lunch meal today (06/18/25). The DM said the pureed rice should have been more smooth so that it was easy to swallow. The DM said she did not check the texture of the pureed food items because she just started here a week ago and she thought [NAME] A knew what to do for the pureed food items. The DM said the purpose of making sure the pureed food items were smooth and pudding-like consistency was that a resident could choke on the food.</p> <p>Interview on 06/18/25 at 1:13 PM, with [NAME] A revealed she normally made the pureed foods for the lunch service and did so today (06/18/25). [NAME] A said she did not think the pureed rice served today was pudding-like or smooth, but she still served it.</p> <p>Record review of the facility's Diets, Nutrition and Hydration policy, revised August 2023 reflected: The facility will provide each resident with three meals a day and a nourishing snack at bedtime.
