#### Comments:

This inspection was conducted by licensing staff using an alternate remote protocol, necessary due to a state of emergency health pandemic declared by the Governor of Virginia.

A complaint inspection was initiated on 2/16/2021 and concluded on 2/25/2021. A complaint was received by the department regarding allegations in the areas of resident care and reporting. The administrator was contacted by telephone to conduct the investigation. The licensing inspector emailed the administrator a list of documentation required to complete the investigation.

The evidence gathered during the investigation did not support the allegation(s) of non-compliance with standards or law.
